

A specialised financing fund targeting 8%-10% annual net returns managed by proven European real estate experts.

The Marshall Bridging Fund (MBF) offers investors access to secure and predictable returns from short term financing of property projects in major European cities, focusing on Germany. The fund's returns are not dependent on the rise in value of any property and thus is unaffected by any volatility that may occur short term in the property values.

What is the opportunity?

As the banks have drastically reduced their lending facilities to the bridge finance sector, especially loans below 20m EUR, this has created a supply shortfall which will be exploited by the fund achieving higher yields and providing lower LTVs, thus reducing risk for investors.

Benefit for the investor

The Marshall Bridging Fund will allow investors to have access to an uncorrelated asset with double digit returns, together with the safety of a real asset as collateral.

Fund key features

The Marshall Bridging Fund (MBF) is designed to generate returns irrespective of market condition or direction, through opportunistic financing and expert understanding of the targeted markets.

- Fund will provide yield to investors with the security of a real asset: real estate
- The collateral possesses low depreciation risk offering solid collateral base for investors.
- Experienced team with established on-the-ground real estate knowledge.
- Fully transparent fund, with no black boxes.
- A fully regulated structure domiciled in Luxembourg.
- Forecast 8-10% annual returns.
- Monthly liquidity to investors.

We offer investors access to short term financing opportunities to the European real estate market without the risk of changing property valuations.

The advantage of property as collateral

The fund will lend with safe LTVs to a diversified portfolio of European real estate properties in strategic and proven locations to ensure sustainability.

- Target a number of real estate markets.
- Properties in key areas with sustainable valuations mitigating downside risk.
- Only use independent valuations and robust lending practices.
- First charge to ensure investors are fully protected, whilst still accessing high yield opportunities.
